

Bellis perennis

Speedstar® Plus

White

Art.-Nr.: BP0204P

- Ideal for spring and fall production - perfect partner to Pansies
- Cultivation under cooler temperatures
- Early flowering, short crop time
- Compact plant habit, no PGRs required
- No vernalization required

Crop Time	Frühjahr: 17 - 20 Wochen , Herbst: 10 - 14 Wochen
Höhe 📏	13 cm
Standort	Sun - Partial shade
Seed Form	Pilliert
Best Uses	Beet und Balkon, Landschaft, Topfpflanze

KULTURANLEITUNG

Bellis perennis Speedstar® Plus

Verwendung

Flowering without vernalisation in fall and spring; Pot, mixed containers, borders or flower beds

Aussaattermin

July-August for fall sales; September-November for spring sales

Kornablage

1 or 2 pellets per plug

Keimbedingung

7-14 days at 68 °F (20 °C), do not cover seed. After germination, gradually reduce temperatures to 60-68 °F (15-20 °C) while maintaining adequate ventilation.

Topfen

Grow on at temperatures of 65-68 °F (18-20 °C) for fall production and 45-50 °F (7-10 °C) for spring production. Plants will flower in approximately 8-10 weeks. Sow in July for fall flowering; or October for early spring flowering. Produce both fall and spring Bellis crops under conditions similar to pansy production.

Medien

Use a well drained growing substrate, pH: 5.5-6.3

Temperatur

16-18 °C for fall and early spring sales or frost free to 10 °C for later spring sales.

Düngung

Moderate fertilization levels are required

Stage I Starts with the radicle breaking through the testa. The roots are touching the medium. Ends with fully developed cotyledons.

Stage II Starts from fully developed cotyledons. Ends with the fully developed true leaf or true leaf pair.

Stage III Starts from the fully developed true leaf or true leaf pair and ends with 80% of the young plants being marketable.

Stage IV All young plants are ready for sale and in the process of being hardened off. This stage lasts about 7 days.

The cultural recommendations are based on results from trials conducted under Central European conditions. Different conditions in other parts of the world may lead to deviations in results achieved.
